THE RISE OF SKYWALKER

Brian Rood

Mot de l'éditeur

Alors que la saga des Skywalkers tire à sa fin, il est difficile de ne pas se replonger dans les aventures de Luke Skywalker qui ont introduit le monde à un nouveau genre cinématographique. Une bande de rebelles se sont affairés envers et contre tous pour offrir au monde une histoire et un visuel qui encore à ce jour reste pratiquement inégalé au grand écran. Trois générations

plus tard, La guerre des étoiles fait encore rêver les petits et les grands et ne semble pas prête de disparaître de la culture populaire. Les fans ont maintenant leur propre section d'un parc Disney, 15 films racontant les histoires de différents personnages et 9 téléseries les plongeant, eux et leur famille dans une galaxie très très lointaine. La fin d'une saga est donc loin d'être la fin d'une histoire et l'histoire de Star Wars entre présentement dans une renaissance qui saura charmer une nouvelle génération de fans. Que la Force soit avec nous et que le soleil ardent brille sur vos futurs voyages!

As we look back on the Skywalker saga, it is hard not to reminisce about the adventures of Luke Skywalker which introduced the world to a new cinematic genre. A small band of rebels worked day and night to offer the world a story, and a visual, which to this day remains without an equal on the silver screen. Three generations later, Star Wars still makes us all, kids and adults, daydream and seems to be well anchored in our popular culture. Fans now have their own part of a Disney Park, 15 movies and 9 TV shows immersing them and their families into a Galaxy far far away. The end of a saga is thus, far from being the end of a story. Star Wars is currently entering a renaissance period which should charm a new generation of fans. May the Force be with us and Bright Suns on your future voyages!

Notre raison d'être

Chaque année, des milliers d'enfants comptent parmi les victimes de maladies graves telles que le cancer. Lors de leur séjour à l'hôpital ces enfants et leurs familles sont bien entourés de personnel médical, mais l'ampleur de certains traitements et la longueur de certains séjours pèsent leur poids sur le moral des enfants ainsi que de leurs familles. Le service des bénévoles du CHU Sainte-Justine (pour qui nous amassons des fonds ce soir) a pour but d'aider les familles et les enfants malades à passer à travers ces dures épreuves en s'assurant qu'ils ne perdent pas le moral. Les dons amassés ce soir serviront à apporter des sourires sur les visages des enfants malades ainsi que leurs familles.

—

Every year thousands of children fall victim to insidious sicknesses as such as cancer. During their stay in the hospital, the children and their families are fully supported by the medical staff, however the strain and length of certain treatment can bear a toll on their morale. The volunteer services of CHU Sainte-Justine, for whom we are raising funds this year, is there to support sick children and their families to get through the rough waters without losing hope. The funds we raise tonight will be used to bring smiles back to sick children and their families.

In Memory of Peter Mayhew

When I first met Peter, he was on stage, talking about Star Wars and George and how he got the part for Chewbacca.

A few hours later, I spotted Boba Fett at the cantina, walked over to say hi and ended up chatting with Chewie, his wife, Boba and a few other friends for hours.

It was one of the best conventions I ever attended, EmpireCon.

Back in 2005 just a few days after Episode III, Peter was in town for business, we ended up celebrating his birthday with a small group of rebels.

It was spontaneous, it was arranged between his wife and I, and it was magical.

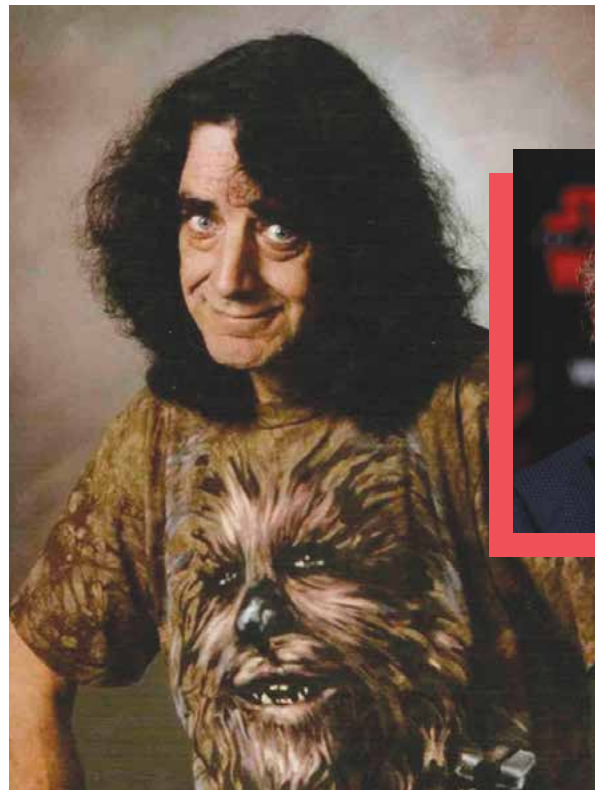

Then I saw Peter here and there over the con circuit and we always had a good time.

Peter was always a kind giant close to the fans and the Star Wars fandom has lost a great actor.

I know a lot of us feel like we've lost a great friend.

I will forever cherish the moments that I shared with him and his family.

Thank you for all the good times, Peter! May the Force be with you!

Previously on Star Wars

From the Dunes of Jakku to the Space ports of Ryloth, Rey "Whatshername" has seen a lot of action, travelled many lightyears and met a very weird old man on Ahch-To.

From a simple junker, she has become a force to be reckoned with, who is now hunted by the First Order Supreme Leader, Kylo Ren. She is fast becoming a master of the Force and could be the galaxy's last hope against the evil that lurks behind the curtains of the First Order.

FN-2187 went from seeing one death too many to questioning his allegiance to the First Order to becoming a full on rebel, he made new friends along the way and now he's willing to fight for what is right.

Led by Leia Organa and Poe Dameron, the forces of the Resistance are now regrouping and thanks to their efforts, a second wind is blowing in the sails of peace and justice.

But they will still need to find a few more allies before facing the First Order.

Meanwhile the First Order continues to secure its grip on the Galaxy as originally intended, is there any way to stop them? Who really is behind this insidious group or Imperial zealot?

So many questions, and only one story left to answer them all.
